

117TH CONGRESS  
1ST SESSION

# S. 1535

To designate as wilderness certain Federal portions of the red rock canyons of the Colorado Plateau and the Great Basin Deserts in the State of Utah for the benefit of present and future generations of people in the United States.

---

## IN THE SENATE OF THE UNITED STATES

MAY 10, 2021

Mr. DURBIN (for himself, Mr. BLUMENTHAL, Mr. BOOKER, Mr. LEAHY, Mr. MERKLEY, Mrs. MURRAY, and Mr. MENENDEZ) introduced the following bill; which was read twice and referred to the Committee on Energy and Natural Resources

---

## A BILL

To designate as wilderness certain Federal portions of the red rock canyons of the Colorado Plateau and the Great Basin Deserts in the State of Utah for the benefit of present and future generations of people in the United States.

- 1       *Be it enacted by the Senate and House of Representa-*
- 2       *tives of the United States of America in Congress assembled,*
- 3       **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**
- 4       (a) SHORT TITLE.—This Act may be cited as the
- 5       “America’s Red Rock Wilderness Act”.

1       (b) TABLE OF CONTENTS.—The table of contents of  
2 this Act is as follows:

See. 1. Short title; table of contents.  
See. 2. Definitions.  
See. 3. Findings.  
See. 4. Purposes.

#### TITLE I—DESIGNATION OF WILDERNESS AREAS

Sec. 101. Great Basin Wilderness Areas.  
Sec. 102. Grand Staircase-Escalante Wilderness Areas.  
Sec. 103. Moab-La Sal Canyons Wilderness Areas.  
Sec. 104. Henry Mountains Wilderness Areas.  
Sec. 105. Glen Canyon Wilderness Areas.  
Sec. 106. San Juan-Anasazi Wilderness Areas.  
Sec. 107. Canyonlands Basin Wilderness Areas.  
Sec. 108. San Rafael Swell Wilderness Areas.  
Sec. 109. Book Cliffs and Uinta Basin Wilderness Areas.

#### TITLE II—ADMINISTRATIVE PROVISIONS

Sec. 201. General provisions.  
Sec. 202. Administration.  
Sec. 203. State school trust land within wilderness areas.  
Sec. 204. Water.  
Sec. 205. Roads.  
Sec. 206. Livestock.  
Sec. 207. Fish and wildlife.  
Sec. 208. Protection of Tribal rights.  
Sec. 209. Management of newly acquired land.  
Sec. 210. Withdrawal.

### 3 SEC. 2. DEFINITIONS.

4       In this Act:

5           (1) SECRETARY.—The term “Secretary” means  
6           the Secretary of the Interior, acting through the Bu-  
7           reau of Land Management.

8           (2) STATE.—The term “State” means the State  
9           of Utah.

### 10 SEC. 3. FINDINGS.

11       Congress finds that—

1                         (1) the land designated as wilderness by this  
2                         Act is 1 of the largest remaining expanses of unpro-  
3                         tected, wild public land in the continental United  
4                         States;

5                         (2) the designation of wilderness by this Act  
6                         would—

7                                 (A) increase landscape connectivity in the  
8                         Colorado Plateau; and

9                                 (B) help to mitigate the impacts of climate  
10                         change by—

11   (i) providing critical refugia;  
12   (ii) reducing surface disturbances that  
13                                 exacerbate the impacts of climate change;  
14   (iii) reducing greenhouse gas emis-  
15                                 sions related to the extraction and use of  
16                                 fossil fuels; and

17   (iv) contributing to the goal of pro-  
18                                 tecting 30 percent of global land and  
19                                 waters by 2030;

20                         (3) the land designated as wilderness by this  
21                         Act is—

22                                 (A) a living cultural landscape;  
23                                 (B) a place of refuge for wild nature; and  
24                                 (C) an important part of Indigenous and  
25                                 non-Indigenous community values;

- 1                         (4) Indian Tribes have been present on the land  
2                         designated as wilderness by this Act since time im-  
3                         memorial, using the plant, animal, landform, and  
4                         spiritual values for sustenance and cultural, medici-  
5                         nal, and ceremonial activities, purposes for which  
6                         Indigenous people continue to use the land; and  
7                         (5) the designation of wilderness by this Act—  
8                                 (A) is vital to the continuation and revital-  
9                         ization of Indigenous cultures; and  
10                                 (B) serves to protect places of Indigenous  
11                         use and sanctuary.

12 **SEC. 4. PURPOSES.**

13                         The purposes of this Act are—

14                                 (1) to designate as wilderness certain Federal  
15                         portions of the red rock canyons of the Colorado  
16                         Plateau and the Great Basin Deserts in the State of  
17                         Utah for the benefit of present and future genera-  
18                         tions of people in the United States;

19                                 (2) to protect the cultural, ecological, and sce-  
20                         nic values of land designated as wilderness by this  
21                         Act for the benefit, use, and enjoyment of present  
22                         and future generations of people in the United  
23                         States; and

24                                 (3) to protect the ability of Indigenous and non-  
25                         Indigenous people to use the land designated as wil-

1 derness by this Act for traditional activities, includ-  
2 ing hunting, fishing, hiking, horsepacking, camping,  
3 and spirituality as people have used the land for  
4 generations.

5 **TITLE I—DESIGNATION OF**  
6 **WILDERNESS AREAS**

7 **SEC. 101. GREAT BASIN WILDERNESS AREAS.**

8 (a) FINDINGS.—Congress finds that—

9 (1) the Great Basin region of western Utah is  
10 comprised of starkly beautiful mountain ranges that  
11 rise as islands from the desert floor;

12 (2) the Wah Wah Mountains in the Great  
13 Basin region are arid and austere, with massive cliff  
14 faces and leathery slopes speckled with piñon and ju-  
15 niper;

16 (3) the Pilot Range and Stansbury Mountains  
17 in the Great Basin region are high enough to draw  
18 moisture from passing clouds and support eco-  
19 systems found nowhere else on earth;

20 (4) from bristlecone pine, the world's oldest liv-  
21 ing organism, to newly flowered mountain meadows,  
22 mountains of the Great Basin region are islands of  
23 nature that—

24 (A) support remarkable biological diversity;

25 and

(B) provide opportunities to experience the  
colossal silence of the Great Basin; and

3                         (5) the Great Basin region of western Utah  
4     should be protected and managed to ensure the pres-  
5     ervation of the natural conditions of the region.

6 (b) DESIGNATION.—In accordance with the Wilder-  
7 ness Act (16 U.S.C. 1131 et seq.), the following areas in  
8 the State are designated as wilderness areas and as com-  
9 ponents of the National Wilderness Preservation System:

10                   (1) Antelope Range (approximately 17,000  
11 acres).

12 (2) Barn Hills (approximately 21,000 acres).

13 (3) Black Hills (approximately 8,700 acres).

(5) Burbank Hills/Tunnel Spring (approximately 94,000 acres).

18                   (6) Conger Mountain (approximately 31,000  
19 acres).

(7) Crater and Silver Island Mountains (approximately 121,000 acres).

(8) Crater Bench (approximately 35,000 acres).

1                   (10) Deep Creek Mountains (approximately  
2                   128,000 acres).

3                   (11) Drum Mountains (approximately 40,500  
4                   acres).

5                   (12) Dugway Mountains (approximately 24,500  
6                   acres).

7                   (13) Fish Springs Range (approximately  
8                   64,500 acres).

9                   (14) Granite Peak (approximately 19,500  
10                  acres).

11                  (15) Grassy Mountains (approximately 24,000  
12                  acres).

13                  (16) Grouse Creek Mountains (approximately  
14                  15,000 acres).

15                  (17) House Range (approximately 202,000  
16                  acres).

17                  (18) Keg Mountain (approximately 38,500  
18                  acres).

19                  (19) Kern Mountains (approximately 15,000  
20                  acres).

21                  (20) King Top (approximately 111,000 acres).

22                  (21) Little Goose Creek (approximately 1,300  
23                  acres).

24                  (22) Middle/Granite Mountain (approximately  
25                  81,000 acres).

1                   (23) Mount Escalante (approximately 17,500  
2                   acres).

3                   (24) Mountain Home Range (approximately  
4                   90,000 acres).

5                   (25) Newfoundland Mountains (approximately  
6                   23,000 acres).

7                   (26) Ochre Mountain (approximately 13,500  
8                   acres).

9                   (27) Oquirrh Mountains (approximately 8,900  
10                  acres).

11                  (28) Painted Rock (approximately 26,500  
12                  acres).

13                  (29) Paradise/Steamboat Mountains (approxi-  
14                  mately 136,000 acres).

15                  (30) Pilot Range (approximately 44,000 acres).

16                  (31) Red Tops (approximately 28,000 acres).

17                  (32) Rockwell-Little Sahara (approximately  
18                  19,000 acres).

19                  (33) San Francisco Mountains (approximately  
20                  40,000 acres).

21                  (34) Sand Ridge (approximately 73,000 acres).

22                  (35) Sevier Plateau (approximately 30,000  
23                  acres).

24                  (36) Simpson Mountains (approximately 43,000  
25                  acres).

1                   (37) Snake Valley (approximately 103,000  
2                   acres).

3                   (38) Spring Creek Canyon (approximately  
4                   5,200 acres).

5                   (39) Stansbury Island (approximately 9,900  
6                   acres).

7                   (40) Stansbury Mountains (approximately  
8                   25,000 acres).

9                   (41) Thomas Range (approximately 41,000  
10                  acres).

11                  (42) Tule Valley (approximately 159,000  
12                  acres).

13                  (43) Wah Wah Mountains (approximately  
14                  177,000 acres).

15                  (44) White Rock Range (approximately 5,500  
16                  acres).

17 **SEC. 102. GRAND STAIRCASE-ESCALANTE WILDERNESS  
18                   AREAS.**

19 (a) GRAND STAIRCASE AREA.—

20                  (1) FINDINGS.—Congress finds that—

21                  (A) the area known as the Grand Staircase  
22                  rises more than 6,000 feet in a series of great  
23                  cliffs and plateaus from the depths of the  
24                  Grand Canyon to the forested rim of Bryce  
25                  Canyon;

1 (B) the Grand Staircase—

(i) spans 6 major life zones, from the lower Sonoran Desert to the alpine forest; and

(ii) encompasses geologic formations that display 3,000,000,000 years of Earth's history;

(C) land managed by the Secretary lines  
the intricate canyon system of the Paria River  
and forms a vital natural corridor connection to  
the deserts and forests of those national parks;

(D) land described in paragraph (2) (other than East of Bryce, the majority of Upper Kanab Creek, Moquith Mountain, Bunting Point, Canaan Mountain, Orderville Canyon, Parunuweap Canyon, and Vermillion Cliffs) is located within the Grand Staircase-Escalante National Monument, as established in 1996; and

(E) the Grand Staircase in Utah should be protected and managed as a wilderness area.

(2) DESIGNATION.—In accordance with the Wilderness Act (16 U.S.C. 1131 et seq.), the following areas in the State are designated as wilder-

1       ness areas and as components of the National Wil-  
2       derness Preservation System:

3                 (A) Bryce Boot (approximately 2,800  
4                 acres).

5                 (B) Bryce View (approximately 850 acres).

6                 (C) Bunting Point (approximately 11,000  
7                 acres).

8                 (D) Canaan Mountain (approximately  
9                 15,000 acres).

10                 (E) East of Bryce (approximately 850  
11                 acres).

12                 (F) Glass Eye Canyon (approximately  
13                 25,000 acres).

14                 (G) Ladder Canyon (approximately 14,000  
15                 acres).

16                 (H) Moquith Mountain (approximately  
17                 15,500 acres).

18                 (I) Nephi Point (approximately 15,000  
19                 acres).

20                 (J) Orderville Canyon (approximately  
21                 8,100 acres).

22                 (K) Paria-Hackberry (approximately  
23                 196,000 acres).

24                 (L) Paria Wilderness Expansion (approxi-  
25                 mately 4,000 acres).

(M) Parunuweap Canyon (approximately 44,500 acres).

(N) Pine Hollow (approximately 11,000 acres).

(O) Slopes of Bryce (approximately 3,700 acres).

(P) Timber Mountain (approximately 52,500 acres).

(Q) Upper Kanab Creek (approximately 51,000 acres).

(R) Vermillion Cliffs (approximately 26,000 acres).

15 (b) KAIPAROWITS PLATEAU.—

16 (1) FINDINGS.—Congress finds that—

17 (A) the Kaiparowits Plateau east of the  
18 Paria River is one of the most rugged and iso-  
19 lated wilderness regions in the United States;

(B) the Kaiparowits Plateau, a windswept land of harsh beauty, contains distant vistas and a remarkable variety of plant and animal species:

(C) ancient forests, an abundance of big game animals, and 22 species of raptors thrive

1           undisturbed on the grassland mesa tops of the  
2           Kaiparowits Plateau;

3           (D) each of the areas described in para-  
4           graph (2) (other than Heaps Canyon, Little  
5           Valley, and Wide Hollow) is located within the  
6           Grand Staircase-Escalante National Monument,  
7           as established in 1996; and

8           (E) the Kaiparowits Plateau should be pro-  
9           tected and managed as a wilderness area.

10          (2) DESIGNATION.—In accordance with the  
11       Wilderness Act (16 U.S.C. 1131 et seq.), the fol-  
12       lowing areas in the State are designated as wilder-  
13       ness areas and as components of the National Wil-  
14       derness Preservation System:

15           (A) Andalex Not (approximately 18,000  
16           acres).

17           (B) Box Canyon (approximately 3,000  
18           acres).

19           (C) Burning Hills (approximately 81,000  
20           acres).

21           (D) Canaan Peak Slopes (approximately  
22           2,500 acres).

23           (E) Carcass Canyon (approximately  
24           85,000 acres).

1                         (F)    Fiftymile   Bench   (approximately  
2                         13,000 acres).

3                         (G)    Fiftymile   Mountain   (approximately  
4                         207,000 acres).

5                         (H)    Heaps   Canyon   (approximately 4,000  
6                         acres).

7                         (I)    Horse   Spring   Canyon   (approximately  
8                         32,000 acres).

9                         (J)    Kodachrome   Headlands   (approximately  
10                         8,500 acres).

11                         (K)    Little   Valley   Canyon   (approximately  
12                         4,000 acres).

13                         (L)    Mud   Spring   Canyon   (approximately  
14                         66,000 acres).

15                         (M)    Nipple   Bench   (approximately 32,000  
16                         acres).

17                         (N)    Paradise   Canyon-Wahweap   (approxi-  
18                         mately 266,000 acres).

19                         (O)    Rock   Cove   (approximately 17,000  
20                         acres).

21                         (P)    The   Blues   (approximately 22,000  
22                         acres).

23                         (Q)    The   Cockscomb   (approximately 12,000  
24                         acres).

1                             (R) Warm Creek (approximately 24,000  
2                             acres).

3                             (S) Wide Hollow (approximately 7,700  
4                             acres).

5                             (c) ESCALANTE CANYONS.—

6                             (1) FINDINGS.—Congress finds that—

7                                 (A) glens and coves carved in massive  
8                             sandstone cliffs, spring-watered hanging gar-  
9                             dens, and the silence of ancient Anasazi ruins  
10                            are examples of the unique features that entice  
11                            hikers, campers, and sightseers from around  
12                            the world to Escalante Canyon;

13                                 (B) Escalante Canyon links the spruce fir  
14                             forests of the 11,000-foot Aquarius Plateau  
15                             with winding slickrock canyons that flow into  
16                             Glen Canyon;

17                                 (C) Escalante Canyon, one of Utah's most  
18                             popular natural areas, contains critical habitat  
19                             for deer, elk, and wild bighorn sheep that also  
20                             enhances the scenic integrity of the area;

21                                 (D) each of the areas described in para-  
22                             graph (2) is located within the Grand Staircase-  
23                             Escalante National Monument, as established  
24                             in 1996; and

(E) Escalante Canyon should be protected  
and managed as a wilderness area.

(A) Colt Mesa (approximately 28,000 acres).

(B) Death Hollow (approximately 50,000 acres).

(C) Forty Mile Gulch (approximately 7,600 acres)

(E) Muley Twist Flank (approximately 3,700 acres)

(F) North Escalante Canyons (approximately 182 000 acres)

20 (G) Pioneer Mesa (approximately 11,000  
21 acres).

(H) Scorpion (approximately 61,000 acres).

1                             (J) Steep Creek (approximately 36,000  
2                             acres).

3                             (K) Studhorse Peaks (approximately  
4                             24,000 acres).

5 **SEC. 103. MOAB-LA SAL CANYONS WILDERNESS AREAS.**

6                             (a) FINDINGS.—Congress finds that—

7                                 (1) the canyons surrounding the La Sal Moun-  
8                                 tains and the town of Moab offer a variety of ex-  
9                                 traordinary landscapes;

10                                 (2) outstanding examples of natural formations  
11                                 and landscapes in the Moab-La Sal area include the  
12                                 huge sandstone fins of Behind the Rocks, the mys-  
13                                 terious Fisher Towers, and the whitewater rapids of  
14                                 Westwater Canyon; and

15                                 (3) the Moab-La Sal area should be protected  
16                                 and managed as a wilderness area.

17                             (b) DESIGNATION.—In accordance with the Wilder-  
18                                 ness Act (16 U.S.C. 1131 et seq.), the following areas in  
19                                 the State are designated as wilderness areas and as com-  
20                                 ponents of the National Wilderness Preservation System:

21                                 (1) Arches Adjacent (approximately 4,100  
22                                 acres).

23                                 (2) Beaver Creek (approximately 45,000 acres).

24                                 (3) Behind the Rocks (approximately 19,500  
25                                 acres).

1                   (4) Big Triangle (approximately 21,500 acres).

2                   (5) Coyote Wash (approximately 27,000 acres).

3                   (6) Dome Plateau (approximately 36,500  
4                   acres).

5                   (7) Fisher Towers (approximately 18,000  
6                   acres).

7                   (8) Goldbar Canyon (approximately 9,500  
8                   acres).

9                   (9) Granite Creek (approximately 5,000 acres).

10                  (10) Hunter Canyon (approximately 5,500  
11                  acres).

12                  (11) Mary Jane Canyon (approximately 27,500  
13                  acres).

14                  (12) Mill Creek (approximately 17,000 acres).

15                  (13) Morning Glory (approximately 11,000  
16                  acres).

17                  (14) Porcupine Rim (approximately 10,000  
18                  acres).

19                  (15) Renegade Point (approximately 6,200  
20                  acres).

21                  (16) Westwater Canyon (approximately 39,000  
22                  acres).

23                  (17) Yellow Bird (approximately 4,600 acres).

24 **SEC. 104. HENRY MOUNTAINS WILDERNESS AREAS.**

25                  (a) FINDINGS.—Congress finds that—

1                 (1) the Henry Mountain Range, the last moun-  
2         tain range to be discovered and named by early ex-  
3         plorers in the contiguous United States, still retains  
4         a wild and undiscovered quality;

5                 (2) fluted badlands that surround the flanks of  
6         11,000-foot Mounts Ellen and Pennell contain areas  
7         of critical habitat for mule deer and for the largest  
8         herd of free-roaming buffalo in the United States;

9                 (3) despite their relative accessibility, the Henry  
10         Mountain Range remains one of the wildest, least-  
11         known ranges in the United States; and

12                 (4) the Henry Mountain range should be pro-  
13         tected and managed to ensure the preservation of  
14         the range as a wilderness area.

15                 (b) DESIGNATION.—In accordance with the Wilder-  
16         ness Act (16 U.S.C. 1131 et seq.), the following areas in  
17         the State are designated as wilderness areas and as com-  
18         ponents of the National Wilderness Preservation System:

19                 (1) Bull Mountain (approximately 16,000  
20         acres).

21                 (2) Bullfrog Creek (approximately 42,000  
22         acres).

23                 (3) Dogwater Creek (approximately 3,400  
24         acres).

1                   (4) Fremont Gorge (approximately 22,000  
2                   acres).

3                   (5) Long Canyon (approximately 16,500 acres).

4                   (6) Mount Ellen-Blue Hills (approximately  
5                   145,000 acres).

6                   (7) Mount Hillers (approximately 20,000  
7                   acres).

8                   (8) Mount Pennell (approximately 155,000  
9                   acres).

10                  (9) Notom Bench (approximately 7,300 acres).

11                  (10) Oak Creek (approximately 1,500 acres).

12                  (11) Ragged Mountain (approximately 29,000  
13                  acres).

14 **SEC. 105. GLEN CANYON WILDERNESS AREAS.**

15                  (a) FINDINGS.—Congress finds that—

16                  (1) the side canyons of Glen Canyon, including  
17                  the Dirty Devil River and the Red, White and Blue  
18                  Canyons, contain some of the most remote and out-  
19                  standing landscapes in southern Utah;

20                  (2) the Dirty Devil River, once the fortress  
21                  hideout of outlaw Butch Cassidy's Wild Bunch, has  
22                  sculpted a maze of slickrock canyons through an im-  
23                  posing landscape of monoliths and inaccessible  
24                  mesas;

1                   (3) the Red and Blue Canyons contain colorful  
2                   Chinle/Moenkopi badlands found nowhere else in the  
3                   region; and

4                   (4) the canyons of Glen Canyon in the State  
5                   should be protected and managed as wilderness  
6                   areas.

7                   (b) DESIGNATION.—In accordance with the Wilder-  
8                   ness Act (16 U.S.C. 1131 et seq.), the following areas in  
9                   the State are designated as wilderness areas and as com-  
10                  ponents of the National Wilderness Preservation System:

11                  (1) Cane Spring Desert (approximately 18,000  
12                  acres).

13                  (2) Dark Canyon (approximately 138,000  
14                  acres).

15                  (3) Dirty Devil (approximately 245,000 acres).

16                  (4) Fiddler Butte (approximately 93,000 acres).

17                  (5) Flat Tops (approximately 30,000 acres).

18                  (6) Little Rockies (approximately 64,000  
19                  acres).

20                  (7) Red Rock Plateau (approximately 210,000  
21                  acres).

22                  (8) The Needle (approximately 11,000 acres).

23                  (9) White Canyon (approximately 115,500  
24                  acres).

## 1 SEC. 106. SAN JUAN-ANASAZI WILDERNESS AREAS.

2 (a) FINDINGS.—Congress finds that—

3       (1) more than 1,000 years ago, the Anasazi In-  
4 dian culture flourished in the slickrock canyons and  
5 on the piñon-covered mesas of southeastern Utah;6       (2) evidence of the ancient presence of the  
7 Anasazi pervades the Cedar Mesa area of the San  
8 Juan-Anasazi area where cliff dwellings, rock art,  
9 and ceremonial kivas embellish sandstone overhangs  
10 and isolated benchlands;11       (3) the Cedar Mesa area is in need of protec-  
12 tion from the vandalism and theft of its unique cul-  
13 tural resources;14       (4) the Cedar Mesa wilderness areas should be  
15 created to protect both the archaeological heritage  
16 and the extraordinary wilderness, scenic, and eco-  
17 logical values of the United States; and18       (5) the San Juan-Anasazi area should be pro-  
19 tected and managed as a wilderness area to ensure  
20 the preservation of the unique and valuable re-  
21 sources of that area.22 (b) DESIGNATION.—In accordance with the Wilder-  
23 ness Act (16 U.S.C. 1131 et seq.), the following areas in  
24 the State are designated as wilderness areas and as com-  
25 ponents of the National Wilderness Preservation System:

26       (1) Allen Canyon (approximately 6,400 acres).

- 1                     (2) Arch Canyon (approximately 30,500 acres).
- 2                     (3) Comb Ridge (approximately 16,000 acres).
- 3                     (4) Cross Canyon (approximately 2,400 acres).
- 4                     (5) East Montezuma (approximately 46,500
- 5                     acres).
- 6                     (6) Fish and Owl Creek Canyon (approximately
- 7                     74,000 acres).
- 8                     (7) Grand Gulch (approximately 161,000
- 9                     acres).
- 10                    (8) Hammond Canyon (approximately 4,700
- 11                    acres).
- 12                    (9) Monument Canyon (approximately 18,000
- 13                    acres).
- 14                    (10) Nokai Dome (approximately 94,000 acres).
- 15                    (11) Road Canyon (approximately 64,000
- 16                    acres).
- 17                    (12) San Juan River (approximately 15,000
- 18                    acres).
- 19                    (13) The Tabernacle (approximately 7,400
- 20                    acres).
- 21                    (14) Tin Cup Mesa (approximately 26,000
- 22                    acres).
- 23                    (15) Valley of the Gods (approximately 20,000
- 24                    acres).

1 **SEC. 107. CANYONLANDS BASIN WILDERNESS AREAS.**

2 (a) FINDINGS.—Congress finds that—

3       (1) Canyonlands National Park safeguards only  
4       a small portion of the extraordinary red-hued, cliff-  
5       walled canyonland region of the Colorado Plateau;6       (2) areas near Canyonlands National Park con-  
7       tain canyons with rushing perennial streams, natural  
8       arches, bridges, and towers;9       (3) the gorges of the Green and Colorado Riv-  
10      ers lie on adjacent land managed by the Secretary;11      (4) popular overlooks in Canyonlands National  
12      Park and Dead Horse Point State Park have views  
13      directly into adjacent areas, including Lockhart  
14      Basin and Indian Creek; and15      (5) designation of those areas as wilderness  
16      would ensure the protection of this erosional master-  
17      piece of nature and of the rich pockets of wildlife  
18      found within its expanded boundaries.19      (b) DESIGNATION.—In accordance with the Wilder-  
20      ness Act (16 U.S.C. 1131 et seq.), the following areas in  
21      the State are designated as wilderness areas and as com-  
22      ponents of the National Wilderness Preservation System:23       (1) Bridger Jack Mesa (approximately 33,500  
24       acres).

25       (2) Butler Wash (approximately 27,000 acres).

1                   (3) Dead Horse Cliffs (approximately 5,300  
2                   acres).

3                   (4) Demon's Playground (approximately 3,600  
4                   acres).

5                   (5) Duma Point (approximately 14,500 acres).

6                   (6) Gooseneck (approximately 9,400 acres).

7                   (7) Hatch Point Canyons/Lockhart Basin (ap-  
8                   proximately 150,500 acres).

9                   (8) Horseshoe Canyon (approximately 83,500  
10                  acres).

11                  (9) Horsethief Point (approximately 15,500  
12                  acres).

13                  (10) Indian Creek (approximately 28,500  
14                  acres).

15                  (11) Labyrinth Canyon (approximately 83,000  
16                  acres).

17                  (12) San Rafael River (approximately 117,000  
18                  acres).

19                  (13) Shay Mountain (approximately 15,500  
20                  acres).

21                  (14) Sweetwater Reef (approximately 69,500  
22                  acres).

23 **SEC. 108. SAN RAFAEL SWELL WILDERNESS AREAS.**

24 (a) FINDINGS.—Congress finds that—

1                   (1) the San Rafael Swell towers above the  
2                   desert like a castle, ringed by 1,000-foot ramparts of  
3                   Navajo Sandstone;

4                   (2) the highlands of the San Rafael Swell have  
5                   been fractured by uplift and rendered hollow by ero-  
6                   sion over countless millennia, leaving a tremendous  
7                   basin punctuated by mesas, buttes, and canyons and  
8                   traversed by sediment-laden desert streams;

9                   (3) among other places, the San Rafael wilder-  
10                  ness offers exceptional back country opportunities in  
11                  the colorful Wild Horse Badlands, the monoliths of  
12                  North Caineville Mesa, the rock towers of Cliff  
13                  Wash, and colorful cliffs of Humbug Canyon;

14                  (4) the mountains within these areas are among  
15                  Utah's most valuable habitat for desert bighorn  
16                  sheep; and

17                  (5) the San Rafael Swell area should be pro-  
18                  tected and managed to ensure its preservation as a  
19                  wilderness area.

20                  (b) DESIGNATION.—In accordance with the Wilder-  
21                  ness Act (16 U.S.C. 1131 et seq.), the following areas in  
22                  the State are designated as wilderness areas and as com-  
23                  ponents of the National Wilderness Preservation System:

24                  (1) Cedar Mountain (approximately 15,000  
25                  acres).

1                   (2) Devils Canyon (approximately 14,000  
2                   acres).

3                   (3) Eagle Canyon (approximately 38,500  
4                   acres).

5                   (4) Factory Butte (approximately 22,000  
6                   acres).

7                   (5) Hondu Country (approximately 2,600  
8                   acres).

9                   (6) Jones Bench (approximately 3,400 acres).

10                  (7) Limestone Cliffs (approximately 25,500  
11                  acres).

12                  (8) Lost Spring Wash (approximately 36,500  
13                  acres).

14                  (9) Mexican Mountain (approximately 25,000  
15                  acres).

16                  (10) Molen Reef (approximately 32,500 acres).

17                  (11) Muddy Creek (approximately 92,000  
18                  acres).

19                  (12) Mussentuchit Badlands (approximately  
20                  24,500 acres).

21                  (13) Price River-Humbug (approximately  
22                  122,000 acres).

23                  (14) Red Desert (approximately 36,500 acres).

24                  (15) Rock Canyon (approximately 17,500  
25                  acres).

1                             (16) San Rafael Knob (approximately 15,000  
2                             acres).

3                             (17) San Rafael Reef (approximately 53,000  
4                             acres).

5                             (18) Sids Mountain (approximately 36,500  
6                             acres).

7                             (19) Upper Muddy Creek (approximately  
8                             18,500 acres).

9                             (20) Wild Horse Mesa (approximately 63,000  
10                             acres).

11                             **SEC. 109. BOOK CLIFFS AND UNTA BASIN WILDERNESS  
12                                     AREAS.**

13                             (a) FINDINGS.—Congress finds that—

14                             (1) the Book Cliffs and Uinta Basin wilderness  
15                             areas offer—

16                             (A) unique big game hunting opportunities  
17                             in verdant high-plateau forests;

18                             (B) the opportunity for float trips of sev-  
19                             eral days duration down the Green River in  
20                             Desolation Canyon; and

21                             (C) the opportunity for calm water canoe  
22                             weekends on the White River;

23                             (2) the long rampart of the Book Cliffs bounds  
24                             the area on the south, while seldom-visited uplands,

1 dissected by the rivers and streams, slope away to  
2 the north into the Uinta Basin;

3 (3) bears, Bighorn sheep, cougars, elk, and  
4 mule deer flourish in the back country of the Book  
5 Cliffs; and

6 (4) the Book Cliffs and Uinta Basin areas  
7 should be protected and managed to ensure the pro-  
8 tection of the areas as wilderness.

9 (b) DESIGNATION.—In accordance with the Wilder-  
10 ness Act (16 U.S.C. 1131 et seq.), the following areas in  
11 the State are designated as wilderness areas and as com-  
12 ponents of the National Wilderness Preservation System:

13 (1) Bad Land Cliffs (approximately 13,000  
14 acres).

15 (2) Bourdette Draw (approximately 15,500  
16 acres).

17 (3) Bull Canyon (approximately 3,100 acres).

18 (4) Dead Horse Pass (approximately 8,400  
19 acres).

20 (5) Desbrough Canyon (approximately 14,000  
21 acres).

22 (6) Desolation Canyon (approximately 32,000  
23 acres).

24 (7) Diamond Breaks (approximately 8,600  
25 acres).

1                   (8) Diamond Canyon (approximately 168,000  
2                   acres).

3                   (9) Diamond Mountain (approximately 31,000  
4                   acres).

5                   (10) Dinosaur Adjacent (approximately 7,900  
6                   acres).

7                   (11) Goslin Mountain (approximately 3,800  
8                   acres).

9                   (12) Hideout Canyon (approximately 12,500  
10                  acres).

11                  (13) Lower Flaming Gorge (approximately  
12                  21,000 acres).

13                  (14) Mexico Point (approximately 1,500 acres).

14                  (15) Moonshine Draw (approximately 10,500  
15                  acres).

16                  (16) Mountain Home (approximately 7,800  
17                  acres).

18                  (17) O-Wi-Yu-Kuts (approximately 14,000  
19                  acres).

20                  (18) Red Creek Badlands (approximately 4,600  
21                  acres).

22                  (19) Survey Point (approximately 8,600 acres).

23                  (20) Turtle Canyon (approximately 9,700  
24                  acres).

## 1           **TITLE II—ADMINISTRATIVE 2            PROVISIONS**

### 3   **SEC. 201. GENERAL PROVISIONS.**

4           (a) NAMES OF WILDERNESS AREAS.—Each wilder-  
5       ness area named in title I shall—

6           (1) consist of the quantity of land referenced  
7       with respect to that named area, as generally de-  
8       picted on the map entitled “Utah BLM Wilderness  
9       Proposed by H.R. 1630, 113th Congress”; and

10          (2) be known by the name given to it in title  
11       I.

12          (b) MAP AND DESCRIPTION.—

13          (1) IN GENERAL.—As soon as practicable after  
14       the date of enactment of this Act, the Secretary  
15       shall file a map and a legal description of each wil-  
16       derness area designated by this Act with—

17           (A) the Committee on Natural Resources  
18       of the House of Representatives; and

19           (B) the Committee on Energy and Natural  
20       Resources of the Senate.

21          (2) FORCE OF LAW.—A map and legal descrip-  
22       tion filed under paragraph (1) shall have the same  
23       force and effect as if included in this Act, except  
24       that the Secretary may correct clerical and typo-  
25       graphical errors in the map and legal description.

## **6 SEC. 202. ADMINISTRATION.**

7        Subject to valid rights in existence on the date of en-  
8 actment of this Act, each wilderness area designated under  
9 this Act shall be administered by the Secretary in accord-  
10 ance with—

(1) the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.); and

15 SEC. 203. STATE SCHOOL TRUST LAND WITHIN WILDER-  
16 NESS AREAS.

17       (a) IN GENERAL.—Subject to subsection (b), if State-  
18 owned land is included in an area designated by this Act  
19 as a wilderness area, the Secretary shall offer to exchange  
20 land owned by the United States in the State of approxi-  
21 mately equal value in accordance with section 603(c) of  
22 the Federal Land Policy and Management Act of 1976  
23 (43 U.S.C. 1782(c)) and section 5(a) of the Wilderness  
24 Act (16 U.S.C. 1134(a)).

1       (b) MINERAL INTERESTS.—The Secretary shall not  
2 transfer any mineral interests under subsection (a) unless  
3 the State transfers to the Secretary any mineral interests  
4 in land designated by this Act as a wilderness area.

5 **SEC. 204. WATER.**

6       (a) RESERVATION.—

7           (1) WATER FOR WILDERNESS AREAS.—

8              (A) IN GENERAL.—With respect to each  
9 wilderness area designated by this Act, Con-  
10 gress reserves a quantity of water determined  
11 by the Secretary to be sufficient for the wilder-  
12 ness area.

13              (B) PRIORITY DATE.—The priority date of  
14 a right reserved under subparagraph (A) shall  
15 be the date of enactment of this Act.

16              (2) PROTECTION OF RIGHTS.—The Secretary  
17 and other officers and employees of the United  
18 States shall take any steps necessary to protect the  
19 rights reserved by paragraph (1)(A), including the  
20 filing of a claim for the quantification of the rights  
21 in any present or future appropriate stream adju-  
22 dication in the courts of the State—

23                  (A) in which the United States is or may  
24 be joined; and

(B) that is conducted in accordance with section 208 of the Department of Justice Appropriation Act, 1953 (66 Stat. 560, chapter 651).

(b) PRIOR RIGHTS NOT AFFECTED.—Nothing in this Act relinquishes or reduces any water rights reserved or appropriated by the United States in the State on or before the date of enactment of this Act.

**9**        (c) ADMINISTRATION.—

10                             (1) SPECIFICATION OF RIGHTS.—The Federal  
11 water rights reserved by this Act are specific to the  
12 wilderness areas designated by this Act.

## 20 SEC. 205. ROADS.

21 (a) SETBACKS.—

22                   (1) MEASUREMENT IN GENERAL.—A setback  
23       under this section shall be measured from the center  
24       line of the road.

1                             (2) WILDERNESS ON 1 SIDE OF ROADS.—Ex-  
2         cept as provided in subsection (b), a setback for a  
3         road with wilderness on only 1 side shall be set at—

- 4                             (A) 300 feet from a paved Federal or  
5         State highway;  
6                             (B) 100 feet from any other paved road or  
7         high standard dirt or gravel road; and  
8                             (C) 30 feet from any other road.

9                             (3) WILDERNESS ON BOTH SIDES OF ROADS.—  
10      Except as provided in subsection (b), a setback for  
11      a road with wilderness on both sides (including cher-  
12      ry-stems or roads separating 2 wilderness units)  
13      shall be set at—

- 14                             (A) 200 feet from a paved Federal or  
15         State highway;  
16                             (B) 40 feet from any other paved road or  
17         high standard dirt or gravel road; and  
18                             (C) 10 feet from any other roads.

19                             (b) SETBACK EXCEPTIONS.—

20                             (1) WELL-DEFINED TOPOGRAPHICAL BAR-  
21         RIERS.—If, between the road and the boundary of a  
22         setback area described in paragraph (2) or (3) of  
23         subsection (a), there is a well-defined cliff edge,  
24         stream bank, or other topographical barrier, the Sec-

1       retary shall use the barrier as the wilderness bound-  
2       ary.

3                     (2) FENCES.—If, between the road and the  
4       boundary of a setback area specified in paragraph  
5       (2) or (3) of subsection (a), there is a fence running  
6       parallel to a road, the Secretary shall use the fence  
7       as the wilderness boundary if, in the opinion of the  
8       Secretary, doing so would result in a more manage-  
9       able boundary.

10          (3) DEVIATIONS FROM SETBACK AREAS.—

11                     (A) EXCLUSION OF DISTURBANCES FROM  
12       WILDERNESS BOUNDARIES.—In cases where  
13       there is an existing livestock development, dis-  
14       persed camping area, borrow pit, or similar dis-  
15       turbance within 100 feet of a road that forms  
16       part of a wilderness boundary, the Secretary  
17       may delineate the boundary so as to exclude the  
18       disturbance from the wilderness area.

19                     (B) LIMITATION ON EXCLUSION OF DIS-  
20       TURBANCES.—The Secretary shall make a  
21       boundary adjustment under subparagraph (A)  
22       only if the Secretary determines that doing so  
23       is consistent with wilderness management goals.

24                     (C) DEVIATIONS RESTRICTED TO MINIMUM  
25       NECESSARY.—Any deviation under this para-

1 graph from the setbacks required under in  
2 paragraph (2) or (3) of subsection (a) shall be  
3 the minimum necessary to exclude the disturb-  
4 ance.

5 (c) DELINEATION WITHIN SETBACK AREA.—The  
6 Secretary may delineate a wilderness boundary at a loca-  
7 tion within a setback under paragraph (2) or (3) of sub-  
8 section (a) if, as determined by the Secretary, the delineation  
9 would enhance wilderness management goals.

10 **SEC. 206. LIVESTOCK.**

11 Within the wilderness areas designated under title I,  
12 the grazing of livestock authorized on the date of enact-  
13 ment of this Act shall be permitted to continue subject  
14 to such reasonable regulations and procedures as the Sec-  
15 retary considers necessary, as long as the regulations and  
16 procedures are consistent with—

17 (1) the Wilderness Act (16 U.S.C. 1131 et  
18 seq.); and

19 (2) section 101(f) of the Arizona Desert Wilder-  
20 ness Act of 1990 (Public Law 101–628; 104 Stat.  
21 4469).

22 **SEC. 207. FISH AND WILDLIFE.**

23 Nothing in this Act affects the jurisdiction of the  
24 State with respect to wildlife and fish on the public land  
25 located in the State.

1   **SEC. 208. PROTECTION OF TRIBAL RIGHTS.**

2       Nothing in this Act affects or modifies—

3           (1) any right of any federally recognized Indian

4       Tribe; or

5           (2) any obligation of the United States to any

6       federally recognized Indian Tribe.

7   **SEC. 209. MANAGEMENT OF NEWLY ACQUIRED LAND.**

8       Any land within the boundaries of a wilderness area

9   designated under this Act that is acquired by the Federal

10   Government shall—

11           (1) become part of the wilderness area in which

12       the land is located; and

13           (2) be managed in accordance with this Act and

14       other laws applicable to wilderness areas.

15   **SEC. 210. WITHDRAWAL.**

16       Subject to valid rights existing on the date of enact-

17   ment of this Act, the Federal land referred to in title I

18   is withdrawn from all forms of—

19           (1) entry, appropriation, or disposal under pub-

20       lic law;

21           (2) location, entry, and patent under mining

22       law; and

23           (3) disposition under all laws pertaining to min-

24       eral and geothermal leasing or mineral materials.
